Range (nautical mile)	600 NM @ 21 kn / 2,000 NM @ 9.5 kn
Main Engine / Model	2x CAT C32
Power (each)	1044 kW@2300 RPM
Propeller / Model	2x NiBrAl FPP - 5 blade - 42" propeller
Accommodation	12 Guest + 3 Crew

EQUINOX | Luxury Yacht

The Equinox series is based on the cutting edge Sigma hull, an advanced wave piercing catamaran shape with exceptional rough water comfort, low fuel consumption and very large internal volumes due to the wide beam.

The Equinox is designed to live and enjoy the sea to the full, in all weathers. It is a boat for adventurers, sportsmen and families; who want to dive, row, wind and kite surf, like they would on an explorer yacht, but with a high sprint speed and stylish design. Designed by LOMOcean Ltd., New Zealand.
